

YOUR POTENTIAL

The typical accounting firm in the US today is run by “old school” technology. Today’s small business owners want more from their accountant.

Many accountants are starting to retire which opens our market further.

Every day, new small businesses are opening and in need of Succentrix services. Our model has an extremely low overhead. Most new Succentrix owners open with little if any payroll.

There is no limit to the potential of each Succentrix franchise.

Our model is basically Recession Proof. The Succentrix Brand model is described by many in the Accounting Industry as one of the top recession proof business models in America. Whether the economy is good or bad small business and individuals will need our services.

With every new client, you build personal equity. As you add clientele, you are not only building a wonderful business, but you will also build long term net worth.
