

# 6 BUSINESS OPPORTUNITIES

Years ago, I was speaking with one of my very close friends. He was one the most successful business entrepreneurs I have ever met. He was much older than I and I would go to him for advice often.

He said " Alan you will see 6 great business opportunities in your lifetime". This was an interesting thought to me. He went on, "when an opportunity comes to you, you must stop and take the time to truly examine it. You must be honest with yourself and make yourself look *beyond* where you are at that time." I believe this is the real lesson. If you don't invest in the time, you will never know for sure if it's one of your 6, and years later you will say, " what if I .....".

Maybe one of your 6 great opportunities is Suceentrix Business Advisors?

Maybe you should invest some time to make sure.

- Alan Padgett -  
President
